PRESIDENT'S NOTE

By Lori Bechtel

Spring has finally sprung and warm days are ahead! I've noticed quite a few docks, lifts, and boats going in the water in the last few days. The fishing opener was just a few days ago and thank goodness we had open water! For a while, as winter stretched on, I was worried it might come close.

We are less than a month away from our annual Clear Water Triathlon & Picnic. This is such a fun event and a great place to meet new people. This year's event has a few changes, specifically the time the events start. Please review page 2 of this newsletter to stay informed. If you have donated a silent auction basket/gift in the past, thank you so much! If you'd like to donate one this year, you can drop it off at The Woodland any day before the event or at the event the morning of. Any gift is appreciated!

The Lake Association has so many great things happening again this year. Soon we will be dredging the trap on Hay Creek. We continue to work closely with the Lake District in exploring a possible new dredge site on Hay Creek. We will likely dredge Beach Creek and Bed Post. We have formed a grant committee to research future grants for possible projects. We invested an additional \$1,000 to the fireworks show this year because of extra fundraising done last year. There are too many other things to mention but please know that we welcome feedback from association members and are always open to new ideas.

Soon we will see many folks returning to the area that head south in the winter. Over the past year there have been quite a few properties that have sold and have new owners. If you have a new neighbor, please encourage them to join the association. The annual membership fee is only \$25.

I look forward to seeing you all at one of our upcoming events but until then, enjoy our beautiful lake and all that it has to offer.

Clearwater Triathlon & Picnic – Saturday, June 9, 2018
Fireworks over Lake Eau Claire – July 4, 2018
Boat Parade – 4:00 pm July 4, 2018
Golf Outing – Saturday, July 28, 2018
Annual Meeting & Picnic – Sat., August 18, 2018

Can you help?

Volunteers are needed for the following:

Lake EAU

CLAIRE
CLEAR WATER
TRIATHLON

June 9, 2018

Join us at beautiful Lake Eau Claire for this family fun event to raise money for water quality improvement! The triathlon follows the shores of Lake Eau Claire and is a non-timed event.

Location:

Harvest Moon Pub & Eatery (formerly The Lake House)
E19986 Cty Rd ND
Augusta, WI 54722

Event Times:

Registration/Package Pick up – 9:00 am – 10:15 am
Triathlon – 10:30 am
Beverages – 11:00 am
Music by Bonafide – Noon – 6:00 pm
Picnic Dinner – 1:00 pm – 3:00 pm
Raffles & Silent Auction – 1100 am – 4:00 pm

Divisions

Individual

Team (2 people) - Complete the bike and run separately and canoe/kayak in tandem, or do the triathlon as a relay

NOTE: Children under 12 must be accompanied by an individual over 18 as a team member and both entrants must complete the run, paddle, and bike together

Triathlon w/ Picnic Pricing:

Entry includes: Participation in event, T-Shirt (first 120 entries), beverages, and picnic dinner

Adult Entry – March 1 – April 30: \$30
Adult Entry – May 1 – June 10: \$40
12 and under Entry – March 1 – June 10: \$20

Picnic Only Pricing:

For individuals not participating in the triathlon, includes dinner and beverages

Adult - \$15
12 and under - \$10

Registration:

Online – <https://endurancecui.active.com/event-reg/select-race?e=52064154>

Mail – Complete registration form with check (payable to Lake Eau Claire Association) and mail to:

Trisha Ives
1505 Centennial Pkwy
Waunakee, WI 53597

Additional Information:

Equipment will not be provided. Participants may use canoes or kayaks. Life jackets and bike helmets are required. Canoes/kayaks will need to be dropped off by participants at Lake Eau Claire County Beach. County park permits will need to be purchased for individuals that park and leave vehicles at the beach. The course will be marked and rules of the road are to be followed while biking and running. There will not be any refunds.

Full day of fun
for the entire
family!

TRIATHLON:

2.5 MILE WALK/RUN

1 MILE PADDLE

8 MILE BIKE RIDE

PICNIC FOR ALL:

MUSIC BY BONAFIDE

PICNIC DINNER

BEVERAGES

RAFFLES

SILENT AUCTION

Fishing Regulations 101!

Over the last few years, fishing regulations on Lake Eau Claire have changed. Be sure to review the 2018-2019 regulations before hitting the water and remind friends/family of the regulations as well. For a full listing of regulations, visit https://cida.usgs.gov/wdnr_regs/apex/f?p=288:1:

General Waterbody Restrictions

Motor Trolling is allowed with up to 3 hooks, baits, or lures, per angler.

Fishing Regulations for Eau Claire Lake

NOTE: Regulations listed below may not reflect fish species actually found in the lake. See Eau Claire Lake's [WDNR Lake Page](#) for more information on this lake's characteristics.

Fish	Season	Regulation
Catfish	Open All Year	No minimum length limit and the daily bag limit is 10.
Panfish (bluegill, pumpkinseed, sunfish, crappie and yellow perch)	Open All Year	No minimum length limit and the daily bag limit is 25, 25 panfish may be kept, but only 10 of any one species..
Largemouth bass and smallmouth bass	May 5, 2018 to March 3, 2019	The minimum length limit is 14" and the daily bag limit is 5.
Muskellunge and hybrids	May 26, 2018 to November 30, 2018	The minimum length limit is 40" and the daily bag limit is 1.
Northern pike	May 5, 2018 to March 3, 2019	No minimum length limit and the daily bag limit is 5.
Trout	See specific regulations	http://dnr.wi.gov/topic/fishing/troutregs.html
Walleye, sauger, and hybrids	May 5, 2018 to March 3, 2019	The minimum length is 15", but walleye, sauger, and hybrids from 20" to 24" may not be kept, and only 1 fish over 24" is allowed. The daily bag limit is 3.

Boat transportation and bait laws (per WI DNR)

Wisconsin has various laws in place to prevent the introduction and control the spread of aquatic invasive species and diseases in Wisconsin.

Transport laws for boaters and anglers

- INSPECT your boat, trailer and equipment
- REMOVE any attached aquatic plants or animals (before launching, after loading and before transporting on a public highway).
- DRAIN all water from boats, motors and all equipment.
- NEVER MOVE live fish away from a waterbody.
- DISPOSE of unwanted bait in the trash.
- BUY minnows from a Wisconsin bait dealer. Use leftover minnows only under certain conditions.*

*You may take leftover minnows away from any state water and use them again on that same water. You may use leftover minnows on other waters only if no lake or river water, or other fish were added to their container (more information below).

Fines for failing to follow the law can be high; here is partial listing of what it could cost you!

<https://dnr.wi.gov/topic/Invasives/documents/AISBondSchedule6.2013.pdf>

DONATIONS

Did you know...

Donations to the Lake Eau Claire Association are Tax Deductible!!

Help Wanted – Fish Crib Build/Installation

It is time for another round of fish cribs to go in this June. We always need plenty of volunteers. Here is all the information:

When: Saturday, June 23 @ 8am

Where: Lake Eau Claire, North Shore Boat Landing

Who: Everyone is welcome, some heavy lifting is required

What: Bring a good pair of work gloves, a heavy pair of boots and an extra big hammer for crib building. If you prefer to work out on the pontoon placing the cribs, you will need to sign a waiver (see Fred Poss the day of) and bring a life jacket. Safety always come first!

How long: Typically, we finish building the cribs in about 2 hours (10am) and the pontoon crew is generally done around noon.

Our goal is install 20 cribs, which is 4 more than our usual 16.

Water and sandwiches are being generously provided by Joe Kirst. Thanks Joe!!

Contact: Please contact Fred Poss at fredposs@gmail.com or 715.286.9413 to sign up.

Remember...Many Hands Make Light Work!

HAY CREEK DREDGING INFORMATION

The Lake Eau Claire Association is again collaborating with the Lake Eau Claire Lake District government to continue cleaning out the creeks on the north side of our lake. As you may have noticed, we are trying out a new schedule, which we hope will best fit the flood conditions. This past year we decided to dredge out the two smallest creeks--Beach Creek and Bedpost Creek--in the late fall/early winter. This allows us to get the big trucks down into the swampy areas with the soil fairly dry and hard from frost. However, we are dredging Hay Creek in June in order to wait for the typical spring floods to pass first. This will allow us to capture the most amount of sediment after the flood and, hopefully, prevent major erosion to the landowner's backyard. Many thanks go out to the Marc Christopher family for allowing us access down into their backyard so we are able to clean out as much sediment as we can. The Lake District and Association hope to continue the investigation and development of a new Hay Creek Trap in the next year. The new trap would be located near or above the last house on Hay Creek, north of its delta that flows into Lake Eau Claire. Please know that your continuing support of the tax levy for the Lake District and your membership in and participation with the Lake Association provides us with the necessary funds to protect our lake from sediment and to keep the blue-green algae from ruining the water in the summer. Together we can accomplish what needs to be done!

Wall of Wine & Wall of Beer Coming to Lake Eau Claire Clearwater Fundraiser Saturday, June 9, 2017

Donate a bottle of wine or a six-pack of beer at the event to be automatically entered. Tickets will be available for sale.

Lake District News by Marlo Orth

During January and February of this year, Krueger & Stienfest of Antigo cleaned the sediment traps of both Troubled Waters Bridge Trap (TWBT) and Gravel Pit Trap (GPT). 12,600 cubic yards was dredged from TWBT, at a cost of \$99,980.00. 8,250 cubic yards was dredged from GPT at a cost of \$49,335. The material from TWBT was taken to our new deposit site on G. The cost of \$9,600 for land clearing, silt fence installation, tracking pad and other preparation work was entirely paid by the Lake Eau Claire Association. We are all very grateful and thankful to the Lake Association, because if they had not paid for the preparation of this new site, because of monetary constraints, we would not have had sufficient funds to clean out GPT which would have resulted in more infilling of our lake. Just take a trip up to Skid Row and see what is happening and think how much worse this would be had we not been removing sediment before it gets to Skid Row. Sometime go look at the pile of sand at the Gravel Pit Deposit site. That is all sand that would be in our lake! Please know that your Lake Association and District Boards are working together co-operatively on all our lake projects. In addition, Eau Claire County is committed to do a 50-50- match this year on projects we do on Lake Eau Claire. For us to get these funds it is necessary for us to take the leadership role. I am so grateful for all the lake volunteers, towns of Bridge Creek, Ludington and their officials, and to Eau Claire County Board, Parks & Forest Departments, and Land Conservation Division for all their guidance and help. Thank You Everyone.

I have mentioned the Eau Claire River Watershed Coalition previously. The 9-Key Element document has been approved by both the EPA and DNR, which makes us eligible for grants that were not available previously. We have been awarded a small Xcel Energy Grant. Three educational students from UW-Eau Claire have taken this on as a service-learning project, to design an educational placemat that can be printed and distributed to restaurants in the watershed. The placemat will have information regarding our watershed on one side and some coloring and activities on the other. In the next month or two, we should see some of these placemats at some restaurants (restaurants that agreed to use them). Our thanks to Jacob Bauer, Jordan Duran and Lucas Weisenberger, UWEC students for their efforts on this educational project

Greg Leonard, Eau Claire County Land Conservation Supervisor and Jim Arch, Clark counties counterpart, submitted a joint application for a TRM grant for about one million dollars. Many facets to this grant, but Greg and Jim are heading this up for the watershed. Most of Eau Claire rivers watershed is in Clark and Eau Claire counties. We are in our infancy and just getting started, but with many people and agencies working together, we will be able to protect and improve our lakes, rivers and streams in the watershed.

Rod Zika is leading the effort to install a new, larger sediment trap further upstream than the one we currently have on Hay Creek. Many lake volunteers are helping in this endeavor. Eau Claire County Parks & Forest and Land Conservation divisions, the Wisconsin DNR are also actively involved in developing this new sediment trap. To design a trap that is efficient and cost effective is no small task. When we have high water, the water just roars down Hay creek (Muskrat Creek also). This all costs money and we can only do what we have manpower and resources to do. Many thanks to everyone for all your support.

Marlo Orth, Chairman - Lake Eau Claire Protection & Rehabilitation District

Renew, Recruit...Join Today!

Membership for the Lake Eau Claire Association is only \$25 per year. As you can imagine, the Lake Association has many expenses during the year. Your membership fee helps pay for things like equipment repairs, website hosting and maintenance, postage and other mailing expenses, newsletter printing, and a host of other things. The dues received are put to good use and spent very wisely. In addition to all that the Lake Association provides today, Lake Association members will now have the opportunity to be enrolled in a texting service that we can utilize during emergency situations. Given the flooding that occurred in September 2016, we believe we need multiple options for notifying people of emergency situations and important announcements. This service will **ONLY** be available to members who are up-to-date on their membership dues. You can renew your membership or join today by going to the following link, <https://www.memberplanet.com/lakeeauclaireassociation>, click the "Join our group" button and fill out the form to "Create an account". You can also join by mailing your payment to: Lake Eau Claire Association, PO Box 229, Augusta, WI 54722.

How Can I monitor My Cabin or Vacation Home?

DreamGetaway – committed to giving you the peace of mind that your getaway stays just the way you left it the last time you were there. We make it easy to check in on your vacation home whenever you feel the need, so that your family vacation doesn't start off with an unexpected surprise.

- Customizable home monitoring system that is personalized to your needs and allows visibility into your vacation home inside and out
- Alerts notifying you when your attention is required, from water leaks to weather events
- Real time recommendations for community sourced contractors
- Installation and ongoing support to ensure you get the most out of your service

We know you work hard all week so you can let loose on vacation and escape the rigors of everyday life. Sign up for a free consultation today to ensure your vacation home is ready for your next family trip.

FORE!

Make plans to join us at the 2018 Lake Eau Claire Association Golf Outing on Saturday, July 28 at the Osseo Golf Course! Stay tuned for more information about reserving a tee time!

HANGING TOGETHER! By Fred Poss

As we all approach another summer season on our beautiful lake, it is a good time to review some of the major accomplishments we have created together. It wasn't that many years ago our lake community decided to vote in a Lake District government with taxing authority. Of course, not everyone agreed with this and there were plenty of debates. However, the majority of lake families realized that the sedimentation of the lake and the cycles of unhealthy blue-green algae were slowly destroying the lake and its water quality. That decision was not an easy one to reach at the time, and the constant floods have strained our resources. Fortunately, the results of that decision have shown the importance of it for Lake Eau Claire. The big sand traps at the Gravel Pit and Troubled Waters Bridge have made an amazing difference. As long as we continue to support those sand traps, the lake should be protected for a long time. Just as vital is the aeration of the deep end of our lake. Blue-green algae only lives on a bottom without oxygen. The aeration system provides the essential oxygen to the very deepest water and thus prevents the blue-green gunk from ever getting started. While the lake does have occasional ordinary algae blooms, the water no longer turns into a stinky pea soup that kills fish and animals alike while ruining the quality for swimming, boating and fishing.

Lake Eau Claire Ice Fisheree

The fact that we as property owners were willing to tax ourselves also allowed us the ability to apply for grants supported by county, state, and national governments and agencies. Some wanted the lake improvements, but argued that "somebody else" should pay for them." It is so easy to forget that grant money does not arrive 100% free. Grants ordinarily come only to those who themselves are willing to provide an amount of matching money, typically 50%. Each year the Lake District has to apply to Eau Claire County for the \$100,000 supplemental money we receive. Eliminating or reducing our tax levy is an appealing idea for the short term but within a year, whatever we reduce will likely result in a corresponding reduction from the county--or even a loss of all county support. That is a risk we should never take. As Benjamin Franklin said to the delegates about to vote up the Declaration of Independence--" We need to all hang together, or...we will all hang separately."

This coming year, please make it a point to renew your lake association membership, to volunteer some of your time for association events like the triathlon or golf outing, to make it a point to stay informed about the lake and its issues, and most of all, to come to the annual meeting and continue supporting the efforts to rehabilitate and protect Lake Eau Claire.

You shop. Amazon gives.

Welcome to Amazon Smile!

How does Amazon Smile work?

When first visiting AmazonSmile, customers are prompted to select a charitable organization from almost one million eligible

organizations. In order to browse or shop at Amazon Smile, customers must first select a charitable organization. For eligible purchases at Amazon Smile, the Amazon Smile Foundation will donate 0.5% of the purchase price to the customer's selected charitable organization.

Shop today using the following link: <https://smile.amazon.com/ch/39-1775333>

Every item available for purchase on www.amazon.com is also available on Amazon Smile (smile.amazon.com) at the same price. You will see eligible products marked "Eligible for Amazon Smile donation" on their product detail pages.

Please note, Amazon Smile only works when using the link provided above. It does NOT work when shopping through the Amazon app on a mobile device or shopping directly through Amazon.com. **Be sure to save the link as a favorite and use it each time you shop on Amazon!**

We received our first payment from Amazon this month and over \$30 has been generated by people shopping at Amazon Smile. Keep it up!

Boat Parade Reminder!

Arrrrr! It'll be summer before you know it and it's time to start thinking about decorating those boats and pontoons for the 2018 boat parade. That's right mates, *Pirate Regatta XXIX* -- will be at 4 pm on the 4th of July. All you Independence Day buccaneers can float the fresh water high seas of Lake Eau Claire, take in the awards ceremony and free libations and still make it to supper before the fireworks. The parade takes about an hour but don't go straight home. There is an awards ceremony on Pirates Island — did we mention there's free libations.

There are two divisions, Frigates — that is for you pontoon owners. In addition, the Schooner division is for you boat people. Since 1988, we have suspended the entry fee and there is no reason to stop that now. First, 2nd and 3rd prizes are awarded in each division. First prize is always a handsome oak plaque that beautifully enhances the wall of any LEC house or cabin and gives the winners bragging rights for years to come. Second and third prizes get a combination of money and libations. In 1988, to promote Pirate lore, we actually awarded silver coins, but by popular demand, we now award prizes in US currency. The Pirates issue a proclamation to all winners, celebrating their creativity and achievement.

Last year, we had 20 units in the parade: 17 pontoons and 3 boats, making it easier to win in that division. Still, we need more boats. The highest number of units (at least since 1988 — that is how long the Pirates have been leading the parade) was 36 units in 1990. The lowest was 15 in 2013. The weather is almost always nice -- there was only one year where we did the parade in a driving rain and that was in 2010 and that year we had 19 units. And that says a lot about the determination of Lake Eau Claire boat paraders. One year — 1997 — the event was cut short when a huge thunderstorm (some say it was a tornado) interrupted the event. We still had the award ceremony, just 2 hours late.

Get the jump on the parade and start planning your theme. There is always stiff competition, especially for Frigate captains and crew. We could always use a judge or two. And arrrrg!, if you have questions, call, Commodore Chris Nelson 715.497.9939 or Admiral Mike O'Connor 715.577.2269.

HELP -- Boat Parade and Balloons!!

After the boat parade in 2017, we heard from a number of concerned citizens that a lot of litter and balloons were found on the islands, in the water, and at the beaches. **Please** consider using water guns instead of water balloons this year. If that does not work, please consider using biodegradable balloons, which can be purchased on Amazon. **Also, if you see trash, please pick it up!** The more people we have taking care of our precious resources the better.
